

Auditor Elipsa

SYSTEM: 2 way vented box loudspeaker.

CABINET: Elliptical shape design, combination of sandwich construction, obtained using 20 hand selected wood layers and solid maple, quality graded and oriented for carefully optimized resonances and standing waves control.

TWEETER: 25 mm ultra dynamic ring radiator-driver.

MIDRANGE: 150 mm cone driver with Symmetric Drive Motor System and selected black wood fiber cone, high resolution, treated for break-up control.
Dynamic linear suspension. Sonus faber exclusive.

CROSS-OVER: Non-resonant first order design, optimized phase characteristics for optimal space/time performance, crossing point 2500Hz

FREQUENCY RESPONSE: 55 Hz – 30.000 Hz, tuning ports included.

SENSITIVITY: 89 db SPL (2.83 V/1m).

NOMINAL IMPEDANCE: 4 ohms.

POWER HANDLING: 40W – 150W, without clipping.

FINISH: Natural maple multicoated with medium gloss ecologically sensitive lacquer.

DIMENSIONS: 335 x 224* x 341 mm (WxDxH). (*with wall fixing tool)

WEIGHT: 13.5 Kg per pair – net weight / 17.5 Kg per pair – shipping weight.
