

REDEFINE

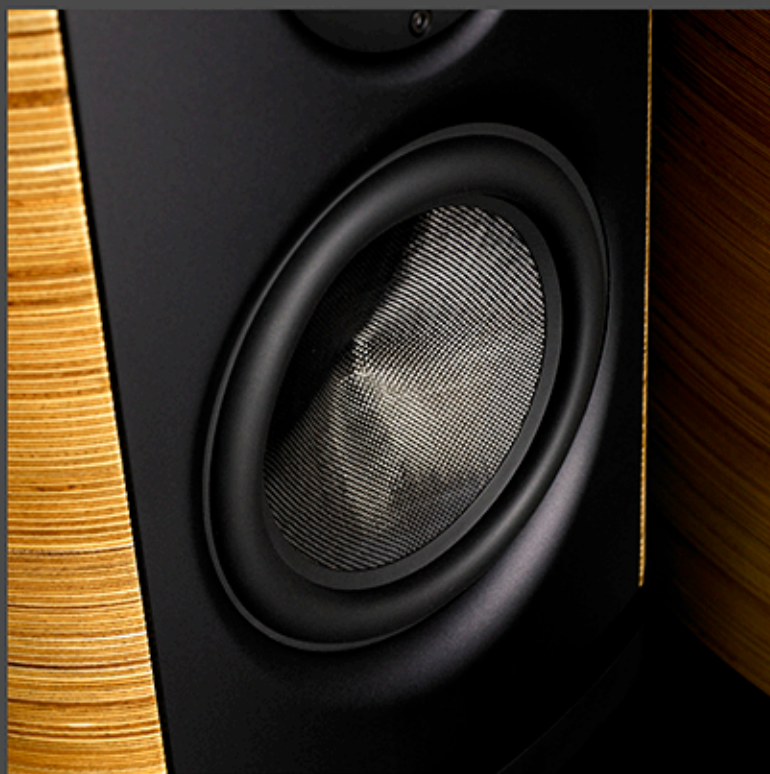

2007

"IT WAS ONLY LAST YEAR THAT **MAGICO**'S ALON WOLF WAS A BOUTIQUE SPEAKER-MAKER WHO SPECIALIZED IN ONE-OFFS FOR VERY WEALTHY CLIENTS. HIS FIRST MAINSTREAM COMMERCIAL VENTURE, THE TWO-WAY **MAGICO MINI** CHANGED THAT. ROBERT HARLEY, HARRY PEARSON, AND I THOUGHT IT WAS THE BEST SOUND AT 2005'S CES. AND NOW, A YEAR LATER, WOLF HAS DONE IT AGAIN - BIG TIME... I'VE HEARD SOME MIGHTY FINE STEREO SYSTEMS OVER THE YEARS. I'VE REVIEWED TRULY GREAT ONES... BUT THE **MAGICO**S REACHED A LEVEL OF REALISM FROM FULL ORCHESTRA TO SOLO VOICE THAT I'VE SIMPLY NEVER HEARD MATCHED. OH, SOME SPEAKERS MAY EQUAL IT ON SOME KINDS OF MUSIC; SOME ON OTHERS. BUT NONE, AT THIS POINT, ON ALL MUSIC."

JONATHAN VALIN THE ABSOLUTE SOUND MARCH 2007

AFTER 4 YEARS OF EXTENSIVE DEVELOPMENT, **MAGICO LLC** IS PROUD TO JOIN THE RANKS OF A VERY SMALL HANDFUL OF LOUDSPEAKER BUILDERS WHO DESIGN AND MANUFACTURE THEIR OWN PROPRIETARY LOUDSPEAKER DRIVERS. CONCEIVED WITH THE “ZERO COMPROMISE” PHILOSOPHY UNIQUE TO ALL **MAGICO** PRODUCTS, THE BRAND NEW FAMILY OF **NANO-TEC®** DRIVERS REPRESENTS A BREAKTHROUGH IN ELECTRO-DYNAMIC LOUDSPEAKER DESIGN AND PERFORMANCE.

\* THE CONES FOR THE **NANO-TEC** DRIVERS ARE FABRICATED FROM 3 DIFFERENT WEIGHTS OF CARBON FIBER COMBINED TO FORM A “NANOCOMPOSITE” SURFACE THAT IS 300% STIFFER THEN THE TITANIUM CONES FOUND IN THE ORIGINAL WORLD-ACCLAIMED **MAGICO MINI**.

\* WHEN THIS REVOLUTIONARY CONE IS SUSPENDED IN A UNIQUE RESONANCE-REJECTING SPIDER AND POWERED BY A MASSIVE NEODYMIUM MAGNET, THE RESULT IS A LIGHT, POWERFUL, THERMALLY-STABLE DRIVER WITH THE ABILITY TO OPERATE AS A PERFECT PISTON FAR BEYOND THE AUDIBLE FREQUENCY SPECTRUM.

\* THE ENGINEERING INNOVATIONS INCORPORATED INTO THE NEW **NANO-TEC** DRIVERS YIELD GREATER CLARITY, RESOLUTION AND DYNAMICS THAN EVER PREVIOUSLY ACHIEVED IN AN ELECTRO-DYNAMIC TRANSDUCER.

V3

THE ALL NEW **V3** INCORPORATES EVERYTHING THAT WE HAVE LEARNED IN THE PAST 15 YEARS ABOUT LOUDSPEAKER DESIGN AND MANUFACTURING. IT REPRESENTS A NEW PRICE/PERFORMANCE BENCHMARK IN AUDIO REPRODUCTION. EMPLOYING OUR NEW PROPRIETY **NANO-TEC** DRIVERS AND THE WORLD'S FIRST "ELLIPTICAL SYMMETRIC CROSSOVER" (ESXO), THE V3 IS DESTINED TO BECOME THE NEW STANDARD IN HIGH-END LOUDSPEAKER PERFORMANCE.
