

Jo N°5

Moving Coil Cartridge

- Moving Coil turntable pickup
- Nude Fine Line stylus type!
- Body and stylus guard made of Polyamide
- Selective Laser Sintering manufacturing process
- Elegant looks
- Unmistakeable E.A.T. mint colour!

Stylus type:	Nude Fine Line
Weight:	15g
Stylus tip radius:	8/40 µm
Frequency response:	20 - 20.000 Hz
Output voltage:	0.3 mV
Channel separation:	>23dB @ 1kHz
Compliance dynamic/lateral:	15 µm/mN
Tracking force range:	2.1-2.5 g
Recommended tracking force:	2.3 g
Tracking angle:	20°
Coil wire material:	Pure 4N copper
Recommended load resistance:	>20Ω

High End E.A.T. cartridge

E.A.T. is very proud to announce its second cartridge creation in history, after the highly acclaimed and successful Yosegi MC. Jo No.5 is an elegant masterpiece, both sonically as well as visually. It comes in unmistakable mint green colour and features a truthful and immersive sound that is pure E.A.T. Cartridge body and stylus guard are produced by an additive manufacturing process which is called Selective Laser Sintering (SLS). This process sinters thin layers of powder with a laser to build the final structure.
