

# METRONOME TECHNOLOGIE

## PREMIUM INTEGRATED CD PLAYERS

Le Player<sup>®</sup> is a new entry-level device of the reputed Métronome CD players, especially developed for music lovers. This integrated CD player performs a brand new CD optical unit and a great sound quality even though a single DAC. The USB input allows Métronome conversion of computer music.

# PREMIUM INTEGRATED CD PLAYERS SPECIFICATIONS

The new Métronome reading mechanism is directly integrated to a Perpex support, providing rigidity and vibrations removal.

The Delrin clamp and proprietary shaft designed by Métronome allows a great compact disk stability. Subsequent lecture results in the best possible reproduction of sound with a low jitter.

The power supply is made of individual power transformers and completely independent regulation lines for each critical part of the transport : display, servo mechanism, motor, digital output stage. This provides an inter-stage EMI/RFI radiation protection and insures a dynamic analog-like sound quality.

The excellent conversion is made through a single D/A converter on a specific board design for better dynamics and decreasing of distortion rate giving a structured and cristal-clear sound.

## TECHNICAL FEATURES

### Pickup mechanism

Métronome proprietary mechanism with specific Delrin clamp.

### DAC resolution

24 bit / 192 kHz bitstream technology  
Signal to noise ratio :120 dB

### Digital output

S/PDIF 75 Ohms RCA connector 16 bits / 44.1 kHz

### Digital input

USB type B for direct connexion to your computer (PC/Mac).  
Accepts high resolution signals up to 24 bits 192 kHz

### Analog outputs

Unbalanced 2.5 V RMS @ 0 dB - 47 kOhms - RCA connectors  
Balanced 2.5 V RMS @ 0 dB - 600 Ohms - XLR connectors

### Power supply

EMI rejection by Schaffner filters  
3 main high quality toroidal transformers and 7 separate and independent regulation lines

### Voltage

100 VAC - 50/60 Hz Japan  
120/240 VAC - 50/60 Hz Other Countries

### Other characteristics

Power consumption : 40 VA  
Dimensions (WxHxD) : 450 x 115 x 435 mm  
Weight : 15 kg

Métronome products are designed and hand made in France
