1. **Build upon the current implementation – 56H**
   a. **Work:**
      i. Cart + Checkout page -16H
      ii. Payment Gateway – 16H
      iii. Order history & management – 24H
   b. **Advantages:**
      i. More control over functionality & performance (custom solution)
      ii. Quicker front-end implementation & design changes
   c. **Disadvantages:**
      i. New feature or change requests will require further dev time
      ii. Initial implementation might be more basic/barbones

2. **Shopify implementation – 48H**
   a. **Work:**
      i. Custom theme – 24H
      ii. Shopify setup – 24H
   b. **Advantages**
      i. Large amount of features "out of the box"
      ii. New feature or change requests might be covered by Shopify "out of the box" features or plugins
      iii. Support, hosting & security offered by Shopify
      iv. Social media integration (post creation)
   c. **Disadvantages**
      i. Some features might be more rigid, either preventing changes or making them harder
      ii. 2% Shopify cut
